

Supplement

Federated Hermes SDG Engagement Equity Fund

a sub-fund of Federated Hermes Investment
Funds public limited company, an umbrella fund
with segregated liability between sub-funds

Investment Manager – Hermes Investment Management Limited

The date of this Supplement No. 19 is 10 December 2021

This Supplement contains information relating to the Fund. This Supplement forms part of and should be read in conjunction with the prospectus of the Company dated 1 December 2021 as may be amended or updated from time to time (the "Prospectus").

Funds of the Company in existence as at the date of this Supplement are set out in the Global Supplement.

Unless the context requires otherwise, capitalised terms used in this Supplement shall have the meaning attributed to them in the Prospectus.

If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, or other financial adviser.

The Directors of the Company, whose names appear under the heading "Management and Administration" in the Prospectus, accept responsibility for the information contained in the Prospectus and in this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement is in accordance with the facts and does not omit anything likely to affect the import of the information.

Profile of a Typical Investor

The Fund may be suitable for investors seeking capital growth, alongside positive societal impact, over at least a three to five year time horizon who understand and accept the associated high level of risk with high volatility attached to a fund investing in small and mid-capitalisation companies. For more information please refer to the section entitled "Risk Factors".

Investment Objective and Policies

Investment Objective

The investment objective of the Fund is to provide long-term capital appreciation alongside positive societal impact, as outlined in further detail in the Investment Strategy below.

Investment Policy

The Fund is an Article 9 fund for the purpose of Regulation (EU) 2019/2088 of the European Parliament and the Council on sustainability-related disclosures in the financial services sector (SFDR). The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities, as defined under the Taxonomy Regulation (EU) 2020/852.

The Fund will seek to achieve its investment objective over a rolling period of any five years, by investing at least 80% in equity and/or equity-related securities of, or relating to, small and mid-capitalisation companies domiciled in, or that derive their income from, developed and emerging markets. These companies will be listed and/or traded on a Regulated Market worldwide.

Investment Strategy

In managing the assets of the Fund, the Investment Manager will seek to identify companies that, in its view, provide the potential for long-term capital appreciation alongside delivering positive societal impact aligned to the United Nations Sustainable Development Goals (the “UN SDGs”) (as outlined in further detail below)¹.

The Investment Manager will, through fundamental analysis of relevant companies, seek to identify companies that the Investment Manager believes will provide long term capital appreciation. It will do so by having regard to such factors as balance sheet quality, franchise value (i.e., brand strength and sustainability of the business model) and quality of management. The review process may include analysis of financial statements of target companies, meetings with management, consideration of the general economic environment in which the company operates, structural growth potential of the relevant industry segment and other relevant factors which allow the Investment Manager to assess the intrinsic value of a company, and compare this to the market valuation, as reflected in the current share price of the relevant company. The Investment Manager will also use standard accounting methodologies to assess the growth prospects by estimating its future operating cash flow less capital expenditures (and adjusting in each case for the time value of money). This analysis will determine whether the companies may provide the potential for long-term capital appreciation notwithstanding that equities of such companies may, at the time of purchase (in the Investment Manager’s opinion), be undervalued.

In order to meet the sustainable investment objective, the Investment Manager will seek companies that also display the potential to be receptive to and benefit from active corporate

¹ Please refer to <https://sustainabledevelopment.un.org/?menu=1300> for further information on the United Nations Sustainable Development Goals.

engagement that will contribute to the UN SDGs. In addition to fundamental financial criteria, engagement criteria that may be used to identify such companies will include, for example, exposure to one or more UN SDGs via the supply chain, internal resources and the products and services of a company, and as assessment of the willingness and desire of company management to respond to such engagement. Engagement opportunities may arise from company specific matters or may come as a result of the Investment Manager and EOS's understanding of best practice in other regions or industries.

It is anticipated that by identifying solutions to meeting specific UN SDGs, companies will be able to incrementally improve long-term financial returns and resilience by generating either additional revenue or higher productivity by delivering, for example, improved health or educational outcomes for their employees and local community. The Investment Manager's in-house stewardship team and EOS will support both the identification of, and engagement with, suitable companies that meet the criteria outlined above and further below. The percentage of companies in the fund that are engaged with will always be between 90%-100%. The UN SDGs are as follows: no poverty; zero hunger; good health and well-being; quality education; gender equality; clean water and sanitation; affordable and clean energy; decent work and economic growth; industry, innovation and infrastructure; reduced inequalities; sustainable cities and communities; responsible consumption and production; climate action; life below water; life on land; peace, justice and strong institutions; and partnership for the goals.

As part of the analysis of individual companies set out above, the Investment Manager will also undertake an assessment of the Environmental, Social and Governance ("ESG") qualities of the company. ESG includes environmental items (such as the impact on natural resources), social issues (such as human rights) and governance (being the way in which the company is run). The Investment Manager assesses the ESG characteristics of a company by considering ESG research and scores from a wide variety of sources such as proprietary analysis from EOS at Federated Hermes and third party providers such as ISS, CDP, MSCI, Sustainalytics and Trucost amongst others. The Investment Manager's approach to ESG integration in its investment analysis draws upon both internal and external sources. The Investment Manager may invest in companies with poor ESG ratings where the company has good potential to improve on its environmental and social characteristics and hence make a contribution, or greater contribution, to the attainment the UN SDGs as, outlined above.

The Investment Manager will not, save in relation to the capitalisation of companies that may be invested in, be subject to any limitation on the types of companies in which it may invest (either in terms of industry or focus) so long as these companies are viewed by the Investment Manager to provide the potential for long-term capital appreciation alongside delivering positive societal impact aligned to the UN SDGs.

In aiming to provide long-term capital appreciation alongside positive societal impact, the Investment Manager will also exclude investment in the following companies (based on information available to the Investment Manager on these companies):

- Companies that generate over 5% of their revenues from the extraction or exploration of fossil fuels
- Electricity utility companies with a carbon intensity not aligned with a below 1.5 degrees scenario
- Companies that generate revenue from the production of controversial weapons and companies that generate over 5% of their revenues from production of conventional weapons

- Companies that generate revenues from the production of tobacco products and companies that receive over 5% of their revenues from tobacco distribution
- Companies that generate over 2% of their revenues from gambling products; and
- Companies that are in contravention of the principles of the UN Global Compact

The Fund's market exposure (which is exposure to the categories of Investments outlined below, and excludes cash held by the Fund) may vary in time and will typically range between 95%-100% for long positions and 0% for short positions of the Net Asset Value of the Fund, depending on the Investment Manager's analysis of the prevailing market conditions and considered in light of the investment objective of the Fund. These ranges are not limits and the actual exposures may from time to time fall outside these estimated ranges.

The Fund is actively managed by the Investment Manager in accordance with the criteria set out in this Supplement and will seek to achieve its objective on an active basis, without reference to a benchmark. The Company shall use the MSCI All Country World SMID Index for performance comparisons with the Fund on certain marketing materials (e.g. fund fact-sheets, investor reports, shareholder presentations etc), as deemed appropriate. The MSCI All Country World SMID Index is a free float adjusted market capitalisation weighted index that is designed to measure the performance of shares in small and mid-sized companies, denominated in various currencies, which are listed in both developed and emerging markets across the world. As at the date of this Supplement, the Investment Manager has determined that this benchmark may be used for such purposes. For the avoidance of doubt the Fund's objective is not to track the performance of an index or benchmark and the Index is not aligned with the Fund's sustainable investment objective. The Fund does not charge any performance fees and, accordingly, no fees are paid to the Investment Manager on the basis of outperformance of an index or benchmark.

Categories of Investments

With the exception of permitted investments in unlisted securities, Eligible CIS, FDIs, money market instruments, cash and cash equivalents, Investments of the Fund will be listed or traded on a Regulated Market. Investments of the Fund may be denominated in the base currency or in other currencies.

Equity: The Fund may invest in a diversified portfolio of equity (such as common and/or preferred stock and/or rights) and/or equity-related instruments (such as GDRs and ADRs) of, or relating to, small and mid-market capitalisation companies in, or that derive a large proportion of their income from, developed and emerging markets. Investment in or exposure to such securities will be on a long-only basis. The Fund will continuously invest at least 66.67% of its net assets in equity assets as defined in sec. 2 para. 8 of the German Investment Tax Act (2018).

The Fund may acquire units/shares of listed closed-ended REITs that can deliver exposure to companies in developed and emerging markets or that derive a large proportion of their income from activities in developed markets and/or emerging markets.

Debt: The Fund may invest in Convertible Debt Securities listed or traded on a Regulated Market worldwide. Investment in or exposure to such securities will be on a long-only basis.

Eligible CIS: The Fund may acquire units/shares appropriate Eligible CIS that can deliver exposure to small and mid-market capitalisation companies. The Eligible CIS in which the Fund invests will meet the requirements of the Central Bank and may include exchange-traded funds

and other funds of the Company. Investment in or exposure to such schemes will be on a long-only basis.

Methods of Access and Efficient Portfolio Management

The Fund may gain exposure to the aforementioned equity and/or equity related securities and/or Eligible CIS through the use of FDIs and/or through investment in Convertible Debt Securities. A decision to use FDIs may be made for reasons such as efficiency (i.e. it may be cheaper to gain exposure to an underlying Investment than to purchase the Investment directly).

FDIs may also be used for efficient portfolio management purposes (for example, to assist in cash flow management, for cost effectiveness and for gaining exposure to certain markets and securities in a quicker and/or more efficient manner).

The FDIs that may be used by the Fund for such purposes include Warrants, Futures, Options (including Options on Futures) and rights.

For efficient portfolio management purposes the Fund may invest in and/or gain exposure to financial indices, hold cash and/or invest in money market collective investment schemes (to, for example, equitise cash) subject to the conditions and limits of the Central Bank. Please see the section headed "Investment in FDIs and Efficient Portfolio Management" in the Prospectus for more information.

Any indices to which exposure is achieved will be in line with the investment strategy of the Fund. If utilised, details of the financial indices in which the Fund invests and/or gains exposure to will be found via www.hermes-investment.com/financial-indices.

For the avoidance of doubt, the Fund does not enter into repurchase and reverse repurchase agreements and/or engage in stock lending.

Cash Management

The Fund's use of FDIs may result in it holding a portion of its Net Asset Value in cash or collateral holdings and in such circumstances the Fund may seek to implement an effective cash management policy. In pursuit of this policy the Fund may invest in collective investment schemes and money market instruments (such as short-dated government-backed securities, floating-rate notes, commercial paper, certificates of deposit, call accounts, treasury bills and treasury notes) and FDIs (of the type noted above).

Leverage and Global Exposure

The Fund may be leveraged up to 10% of its Net Asset Value. That is, the total exposure associated with the Investments of the Fund, including Investments in FDIs, may amount to 110% of the Net Asset Value of the Fund and will be calculated using the commitment approach.

Currency Hedging Policy

The Fund may enter into transactions for the purposes of hedging the currency exposure in accordance with the sections entitled "Hedging at Portfolio Level", "Hedging at Share Class Level

against Portfolio Currencies” and “Hedging at Share Class Level against Base Currency” in the Prospectus.

Risk Factors

Potential investors and Shareholders are referred to the section of the Prospectus entitled "Risk Factors". Regard should be had to the risks outlined under the heading "General Risk Factors" as each of these risk factors will be relevant in the context of an investment in the Fund.

In addition, investors should specifically refer to the following risks that appear under the heading "Fund Specific Risk Factors", as these relate to risks arising as a result of the Fund's Investments and/or portfolio management techniques:

Risk	Prospectus page reference
Sustainability Risk	25
Emerging Markets Risk	32
Equity Risk	34
Futures Risk	37
Small and Mid-Cap Companies Risk	42

Dealing Information

Dealing Deadline	9.30 am (Irish time) on the relevant Dealing Day.
Valuation	The Valuation Point will be 12 noon (Irish time) on each Dealing Day. The value of instruments or securities which are quoted, listed or dealt in on a Regulated Market shall (save in certain specific cases) be the last traded price on such Regulated Market as at the Valuation Point, or the latest mid-market price at the Valuation Point when no last traded price is available.
Income Equalisation	The Fund operates Income Equalisation.
Timing of Payment for Subscriptions	Payment must be received by the Administrator by close of business on the third Business Day following the applicable Dealing Day.
Timing of Payment for Redemptions	Redemption proceeds will be paid on the third Business Day following the relevant Dealing Day.
Administrator's Fee	Up to 0.04% of the Net Asset Value of the Fund accrued and calculated daily and payable monthly in arrears. The Fund will also pay other costs to the Administrator such as transfer agency charges and transaction fees. Details are set out in the Prospectus in the section entitled "Fees and Expenses".
Depository's Fee	The Fund will bear transaction and custody charges which are calculated on the basis of the assets held. The Fund will also pay a depository fee of up to 0.0110% of its Net Asset Value to the Depository. The Fund will also pay other costs to the Depository such as out-of-pocket expenses and sub-custodial fees and expenses. Details are set out in the Prospectus in the section entitled "Fees and Expenses".
Other Fees and Expenses	All fees and expenses, not exceeding GBP50,000, relating to the establishment of the Fund, including the fees of the advisers to the Company, such as legal advisers, will be borne by the Fund and will be amortised over the first five financial years of the lifetime of the Fund or such other period as the Directors may determine and advise to Shareholders, for example via the Company's financial statements. The Fund shall bear its attributable proportion of the organisational and operating expenses of the Company (including the establishment expenses of the Fund). Details of these and of other fees and expenses relating to the Company are set out in the Prospectus in the section entitled "Fees and Expenses".
Compulsory Redemption Threshold	All the Shares of the Fund may be compulsorily redeemed at the discretion of the Directors if, after the first anniversary of the first issue of Shares of the Fund, the Net Asset Value of the Fund falls below GBP100,000,000 for any period of time.

Share Class Information

Fees

Class	Management Fee (Max)
A	1.50%
F	0.75%
I	0.75%
K	0.70%
L	0.70%
M	0.65%
P	0.75%
R	1.50%
T*	0.00%
W	1.25%
X	0.60%
Z**	0.00%

*Shareholders in the Class T Shares will be subject to a fee with regard to their investment in the Fund based on the Client Agreement between them and the Investment Manager or its affiliate. This fee will not exceed 1% per annum of the value of the Shareholder's holding in the Fund. The Investment Manager (or its affiliate, if relevant) reserves the right to repurchase the entire holding of Shares of any Shareholder (deducting any amount owed for unpaid investment management fees), if the relevant Client Agreement is terminated for any reason whatsoever.

**Shareholders in the Class Z Shares will be subject to a fee with regard to their investment in the Fund based on the Client Agreement between them and the Investment Manager or its affiliate. This fee will not exceed 3% per annum of the value of the Shareholder's holding in the Fund. The Investment Manager (or its affiliate, if relevant) reserves the right to repurchase the entire holding of Shares of any Shareholder (deducting any amount owed for unpaid investment management fees), if the relevant Client Agreement is terminated for any reason whatsoever.

The above amounts can be paid in the currency stated or its foreign currency equivalent.

Capacity Management

The Directors may, at their absolute discretion, impose capacity management related constraints on the Fund. Please see the section headed "Capacity Management" in the Prospectus for more information. Details about whether the Fund is currently under capacity management constraints will be published on the Manager's website: www.hermes-investment.com/capacitymanagement.

Initial Offer of Shares

As more particularly described in the Prospectus, the Company offers 17 Classes of Shares with various distribution policies, distribution frequencies, hedging policies and currencies in each Class.

The table below sets out details of the Classes of Shares in the Fund approved by the Central Bank, and the Classes which are available for purchase as at the date of this Supplement. Unless otherwise indicated by (*), the currency available in each Class of Shares set out below are available in hedged and unhedged versions.
