Portfolio Strategy

The BMO MSCI USA ESG Leaders Index ETF has been designed to replicate, to the extent possible, the performance of the MSCI USA ESG Leaders Index, net of expenses. The ETF invests in U.S. companies that have higher MSCI ESG ratings than their peers. The ETF invests in and holds the Constituent Securities of the Index in the same proportion as they are reflected in the Index.

Benchmark Info

The MSCI USA ESG Leaders Index is based on the MSCI USA Index, which includes large and mid-capitalization stocks across the U.S. The Index aims to capture the performance of securities that have been assigned higher ESG ratings by MSCI relative to their peers and targets 50% of the market capitalization within each sector. The Index excludes securities of companies that earn significant revenues from tobacco, alcohol, gambling, conventional weapons and civilian firearms, any controversial weapons, significant generation of nuclear power as well as companies involved in severe business controversies. The portfolio is weighted by market capitalization and is re-balanced quarterly.

²Beta is a measure of how a BMO ETF responds to moves in the broader market in which it invests. A beta of greater than 1.00 suggests that the ETF is more volatile than the market, while a beta of less than 1.00 suggests that the ETF is less volatile than the market. Beta may change over time and historical beta is not indicative of future beta. The indicated beta is generally based on historical rolling two-year returns. Where a BMO ETF does not have two years of performance history, the beta may be calculated as long as at least six months of performance history is available. [↗](#)
