Portfolio Strategy

The BMO Short Provincial Bond Index ETF has been designed to replicate, to the extent possible, the performance of the FTSE Canada Short Term Provincial Bond Index™, net of expenses. The Fund invests in a variety of debt securities primarily with a term to maturity between one and five years. Securities held in the Index are generally issued or guaranteed by the Provincial Governments in Canada, by various agencies of the Provincial Governments, and by various instrumentalities that have been established or sponsored by Provincial Governments.

Benchmark Info

The FTSE Canada Short Term Provincial Bond Index™ consists of semi-annual pay fixed rate provincial bonds denominated in Canadian dollars, with an effective term to maturity less than five years but greater than one year, a credit rating of BBB or higher and minimum size requirement of \$50 million per issuer or \$100 million for issues after January 2019. The provincial sector consists of bonds issued by Canadian provinces and provincial or territorial corporations, incorporated under their respective jurisdiction. Each security in the index is weighted by its relative market capitalization and rebalanced on a daily basis.

Fund Benefits

- Designed for investors looking for defensive income
